[1] Quae uncis inclusi in ipso titulo non commemorata sunt.

Denique textus Brit. Mus. Add. 14641 (saec. x vel xi), qui (fol. 150 r° seqq.) Acta Septem Dormientium (nostri II, i), et (fol. 157 r° seqq.) epistulam Simeonis episc. Beith Aršam (nostri VIII, iii) continet, mihi e nostro et chronico Dionysio Patriarchae adscripto conflatus esse videtur (vide notas appositas)[1].

De codicibus Musaei Britannici vide W. Wright, *Catalogue of the Syriac MSS. in the British Museum* (Londinii, 1871, 1872), p. 976, 1046, 1206; de codice Vaticano I. S. Assemanus, *Bibl. Orient.* (Romae, 1721), II, p. 54, et S. E. et I. S. Assemanus, *Bibl. Apost. Vat. Codd. MSS. Catalogus* (Romae, 1759), III, p. 253.

In textu edendo multum mihi profuit textus syriacus Chronici Michaelis Syri nuper repertus et a I. B. Chabot (Parisiis, 1899, etc.) editus. Hic auctor Zachariam inter fontes recenset (vers., t. I, p. 2), et interdum nomine citat, ut p. 173 textus (infra, p. 109, n. 9; p. 123), p. 185 (infra, p. 176), p. 216 (infra, p. 154), p. 307 (nostri X, ix), qua codicum textus deest, et in multis aliis etiam locis opus nostrum paene ad verbum exscribit. Quare non solum in locis corruptis correctiones e Michaele adhibui et lacunas supplevi, sed, ubi nullum alium fontem habuisse videtur, ut in epistulis patriarcharum (IX, xxi-xxvi), locos a nostri codicis scriba praetermissos[2] restitui, et notitias quae de capitibus libri X deperditis sumptae esse videntur transcripsi. Textus Michaelis impressus e versione arabica quae in Cod. Brit. Mus. Or. 4402 conservatur nonnunquam corrigi potest. Ut codicis A textum corruptissimum ubique sequerer prorsus fieri non potuit, ideoque cum e codice V (quem per phototypiam contuli), Michaele, et aliis fontibus, et per coniecturam saepius correxi, codicum lectionibus in notis semper

[1] Ita etiam Allgeier in *Oriens Christianus*, nova ser., III, p. 290.

[2] Eos a scriba, non ab auctore, omissos esse eo etiam confirmatur quod in cap. xxii, ut supra dixi, clausula incompleta relicta est.

adhibitis. In versione germanica Krüger et Ahrens (Lipsiae, 1899) coniecturae permultae (aliae ab Hoffmann, aliae a Nöldeke, aliae ab ipso Ahrens factae) proferuntur, quas propriis auctoribus in notis attribui. Coniecturarum quae in versione anglica Hamilton et Brooks (Londinii, 1899) reperiuntur eas quas fecit Hamilton eius nomine rettuli.

III. Editiones :

I. S. Assemanus, *Bibliotheca Orientalis*, II (Romae, 1721), p. 54-62. Citationes e codice V cum versione latina.

A. Mai, *Scriptorum Veterum Nova Collectio*, X (Romae, 1838), p. 332-360. Textus codicis V universus cum versione latina. Textus parum accuratus est, et codicis orthographiae ratio vix adhibetur. Praeterea textus epistulae Simeonis (VIII, iii) de codice non sumptus est, sed textus quem Assemanus (*B. O.*, I, p. 364-379) de Chronico Dionysii dicto edidit apographum est.

I. I. Overbeck, *S. Ephraemi Syri aliorumque opera selecta* (Oxonii, 1365), p. 231-238. Textus epistulae Rabbulā (X, iv) e codice A transcriptus.

I. P. N. Land, *Anecdota Syriaca*, III (Lugduni Batavorum, 1870), p. 2-340. Textus codicis A universus. Lectiones codd. ceterorum qui in Musaeo Britannico conservantur in notis citantur, et initium cap. vi libri I et caput xvi libri X e codd. B et C suppleta sunt, sed codicis V nulla in notis mentio est, et ad textum restituendum nihil fere praebuit auctor. Land, ut in praefatione (p. xiv) dicit, codices quam plurimos exscribere maluit quam in codicibus edendis multum tempus expendere, ideoque textus mendis scatet.

I. Guidi, *Il testo siriaco della descrizione di Roma nella storia attribuita a Zaccaria Retore* (Romae, 1884. *Bull. della Comm. Arch. di Roma*, XII, p. 218-239). Textus capitis xvi libri X e codd. C et V transcriptus, cum versione latina, coniecturis et adnotationibus sagacissimis. Vide etiam tom. XIX, p. 61-69

Ephesi secundam, successionem episcoporum, epistulam Procli ad Armenios, et breve chronicon exhibet. In libris III-VI, qui ad annum 491 extendunt, paucis rebus exceptis omnia de graeca Zachariae historia sumpta sunt et ad res ecclesiasticas pertinent; in libro VII regnum Anastasii, in libro VIII regnum Iustini, in libris IX-XII regnum Iustiniani et res quae usque ad annum 569, quo opus finitum est, gestae sunt narravit auctor, sed liber XI omnino periit, et librorum X et XII fragmenta tantum conservata sunt; ultimum quod exstat caput (XII, VII) Ptolemaei Geographiae epitomen exhibet. Auctor monachus fuisse videtur et Amidae vixisse, sed et de eo et de Zacharia in praefatione ad versionem fusius tractabimus.

II. Codices et huius editionis methodus :

A. Brit. Mus. Add. 17202 (anno circ. 600 scr.), in duos olim tomos divisus, quorum prior foll. 1-107 (libr. I-V), alter foll. 108-193 (libr. VI-XII) continebat. Post fol. 9 unum saltem folium, post fol. 16 duo folia desunt; foll. 141 et 142, ut e Chronico Michaelis et ex ipso sensu liquet, per errorem transposita sunt, et ex eodem Michaele post foll. 171 et 183 folia periisse videmus; post foll. 181 et 185 longae sunt lacunae, et maior pars fol. 185 v° *b* erasa est ut homilia Iacobi Batnensis de Transfiguratione ibi exscribatur; finis denique codicis mutilus est. Codex, quamvis antiquissimus, mira incuria scriptus est. Inter errores qui crebro occurrunt notare licet ܀ finale vocabulis passim additum esse (in multis locis alia, ut videtur, manu erasum vel deletum), ܘ finale 3ae pers. plur. masc. verborum praeteritorum frequentissime omissum esse vel perperam additum, et vocabulum quod supra vel infra proxime stet a scriba (alius plerumque vocabuli loco) saepius iteratum esse; cuius rei exempla ad p. 66, l. 9, p. 70, l. 26, p. 73, l. 1, p. 136, l. 24, p. 150, l. 16, p. 162, l. 2, p. 181, l. 18, p. 187, l. 1, p. 234, l. 21, libr. VIII, cap. III (f. 136 v° *b*), libr. VIII, cap. VI ad fin., libr. IX, cap. XXVI prope fin., et libr. X, cap. I

prope fin. videas. Tanta erat scribae neglegentia, ut in cap. XXII libri IX, epistulam contrahere volens, clausulam sine verbo incompletam reliquerit (f. 172 v° *a*; cf. MICH., p. 290), et caput IX sine Michaelis supplementis intellegi non posset. Initium etiam capitis XX, ut in textu stat, sensu plane caret.

B. Brit. Mus. Add. 7190 (saec. XII) caput VI libri I solum continet (fol. 319 r° seqq.), et, cum lacunam quae in A fol. 16 sequitur verbis ܡܢ ܗܪܟܐ ܐܬܚܣܪ ܘܠܐ ܐܫܟܚܢ ܠܗ notet scriba (fol. 324 r°), quin eius codicis apographum sit dubitari non potest : sed initium capitis, quod in A deest, supplet.

C. Brit. Mus. Add. 12154 (anno circ. 800 scr.) duas citationes ܡܢ ܐܩܠܣܝܣܛܝܩܐ ܕܙܟܪܝܐ continet, quarum prior (fol. 151 v°) de capite XIX libri IX sumpta est, altera (fol. 158 r°) caput XVI libri X, quod in A deest, conservat. Si textum huius citationis cum codice V comparamus, eum epitomen tantum esse clare videmus et res obscuriores omissas esse.

V. Vat. Syr. 145 [1] (saec. IX ?) in foll. 78 v°-101 r° excerpta e III, I, II-VIII; VII, I, III-VI, IX, XIII, XIV; VIII, III, VII; IX, VI, VII, XII, XIII, XVII; X, XV, XVI continet, quorum ea quae de libro X sumpta sunt in A desunt. Codex orthographiam seriorem quam A exhibet, sed aliter, quamvis recentior, ei praeferendus est.

Pars versionis Geographiae Ptolemaei (XII, VII) in Brit. Mus. Add. 14620 (saec. IX), fol. 28 r° seqq., invenitur, et eius codicis lectiones a Land conlatae sunt; sed, cum Zachariae nomen ibi non citetur et textus valde ab A discrepet, fieri potest ut de versione quadam Ptolemaei operis qua noster usus sit exscriptus sit, ideoque inter nostri auctoris codices hunc non recensui.

[1] Mai, per lapsum, n° 146 codicem designavit; item, I. S. Assemanus, *Bibl. Or.*, II, p. 55, numerum 24 in antiqua serie ei adscripsit, quamquam numero 50 in Indice Abrahami Echellensis notatur.

PRAEFATIO.

I. Auctor et opus :

Opus syriacum cuius textum (quem versio mox subsequetur) edimus primus notum fecit I. S. Assemanus, qui eius excerpta quaedam, quae a concilio chalcedonensi ad excidium Romae anno 546 factum extendunt, in Cod. Syr. Vat. 145 invenit et in *Bibliotheca Orientali* cum citationibus descripsit. Cum locus qui hic occurrit (nostri textus VIII, vii ad fin.) a Dionysio Bar Ṣalībī sub nomine Zachariae Rhetoris et episc. Melitenes profcratur, et plerique loci ab Evagrio de Zacharia Rhetore citentur, Assemanus Zachariae Melitenensi opus adscripsit. Fragmenta anno 1838 a Mai cum versione latina edita sunt, qui auctorem cum Zacharia Scholastico et episc. Mitylenes qui scripsit *Dialogum de Opificio Mundi* eundem fecit, eumque graece scripsisse recognovit. Sed opus de quo haec excerpta sunt, in duodecim libros divisum, in Cod. Brit. Mus. Add. 17202 exstat, unde a Land anno 1870 vulgatum est, qui ex ipsius auctoris verbis cum in libro tantum III Zachariam sequi incepisse notavit, perperam autem librum VII Zachariae adscripsit, quamquam libros III-VI solos de eo sumptos esse auctor indicat. A Syris (ex gr., Bar Ṣalībī et Michaele) totum opus quasi Zachariae per errorem citatur.

In libro I auctor post exordium, in quo operis scopum ac methodum explicat, discrepantiam versionum libri Genesis graecae et syriacae chronologicam tractat, cetera capita versionem libri Ioseph et Aseneth Mosi Ingileno adscriptam, Acta Silvestri, narrationem de inventione relliquiarum S. Stephani et aliorum, et auctorum duorum syrorum brevem laudationem continent. In libro II, post Acta Septem Dormientium, historia proprie dicta, quae opera Socratis et Theodoreti continuat, anno 449 incipit, et Eutychis a gradu depositionem, synodum
